Item 100 - APPLICATION OF TARIFF

This Rules Tariff 102 (this "Tariff") and the rates, rules and special service charges stated herein apply to motor carrier transportation of cargo by **RXO EXPRESS, LLC (f/k/a XPO Logistics Express, LLC)** (the "Carrier" or "RXO") in interstate, intrastate and/or foreign commerce between points in the United States, Canada and Mexico. Application of this Tariff may be waived only if such waiver is express and contained in a written agreement signed by an authorized representative of Customer and an officer of Carrier.

If RXO arranges for transportation of cargo exclusively via third party motor carrier and does not transport such cargo at any time on motor vehicle equipment owned by or leased to RXO, then such services will be under RXO's property broker authority issued by the United States Department of Transportation (the "DOT") and will be subject to and governed by the RXO Customer Standard Terms and Conditions available at www.RXO.com/business-terms.

For any shipments where RXO arranges air transportation, any ground transportation provided by RXO with respect to any such shipment will be subject to and governed by this Tariff, and in all other respects, such services will be subject to and governed by the RXO Customer Standard Terms and Conditions available at www.RXO.com/business-terms, which provides that, among other provisions, that the bill of lading issued by the air carrier will apply.

If there is a conflict between the terms and conditions of this Tariff and the terms and conditions on any bill of lading, shipping order, manifest, or any other transit document issued in connection with motor carrier transportation performed by Carrier, the terms and conditions of this Tariff as amended, modified, changed, or supplemented will take precedence.

Nothing in this Tariff will be deemed to obligate Carrier to accept cargo from Customer. Carrier is free to accept or reject any specific tender and will have no liability arising from or related to any refusal to transport cargo tendered by Customer.

Item 110 - CHANGES TO THIS TARIFF

This Tariff may be changed from time to time without notice.

When this Tariff is amended or revised, the revisions will take effect at 12:01 AM Eastern Time as of the Effective Date shown thereon and will cancel all prior versions of this Tariff.

Customers are advised that the terms, conditions, limitations and charges set forth in this Tariff in effect on the shipment tender date will apply. The current version of this Tariff may be obtained from Carrier's website at www.RXO.com/business-terms.

Item 120 – DEFINITION OF CUSTOMER

For purposes of this Tariff, "Customer" will mean any entity responsible for requesting that Carrier provide services governed by this Tariff, any entity responsible for payment to Carrier for such services, or any entity receiving the benefit of such services or having an interest in the cargo, including but not limited to the shipper (i.e., consignor), the receiver (i.e., consignee) and the beneficial owner of the cargo.

Item 360 - BILLS OF LADING

Except as otherwise set forth herein, the terms and conditions of Carrier’s standard bill of lading will apply regardless of a bill of lading or other document that is issued or substituted by Customer or any other party. Carrier’s agent and/or drivers are not authorized to execute any documents with alternative terms and conditions. Any document other than Carrier’s bill of lading will service as receipt for the goods received.

Item 360-01 - BILLS OF LADING-CORRECTED

A request for a corrected bill of lading for changes in collection, i.e., from collect to prepaid, prepaid to collect or to add, change, or delete a third-party billing may be accepted up to ninety (90) days from the date of Carrier’s invoice and only from a party to the original bill of lading with written notice on company letterhead or a corrected bill of lading from the party assuming the payment identifying the company and person authorizing the correction, provided however that the party originally identified as being responsible for payment will remain liable to Carrier notwithstanding the terms of the corrected bill of lading.

Item 401 - CARGO CLAIMS RULES

Except as otherwise set forth herein, claims for cargo loss or damage will be processed in accordance with the federal claims, loss and damage regulations (49 C.F.R. 370) Code of Federal Regulations, Part 370, Principles and Practices for the Investigation and Voluntary Disposition of Loss and Damage Claims and Processing of Salvage.

(A) FILING OF CARGO CLAIMS

- i. Claims must be filed in writing within nine (9) months from the date of delivery or within a reasonable time during which delivery should have been accomplished or Carrier will have no liability therefor. A claim for loss, damage, injury or delay to cargo will not be paid by Carrier unless filed in writing as provided in subparagraph (C) of this item with Carrier within the specified time limits applicable thereto. Notice of concealed damages will be submitted to Carrier within forty-eight (48) hours of delivery or the claimant will be responsible for overcoming the presumption that cargo delivered pursuant to a clean bill of lading was delivered in good order and condition.
- ii. Any suit to recover loss, damage or delay to cargo must be instituted no later than two years and one day after all or any part of the claim is denied.
- iii. The claim must be submitted in writing from the claimant within the time limits specified in the bill of lading or contract between Carrier and the shipper or this Tariff and (1) contain facts sufficient to identify the shipment (s) of property involved; (2) assert liability for alleged loss, damage, injury or delay; and (3) make claims for the payment of a specified or determinable amount of money.
- iv. Documents not constituting claims such as bad order reports, appraisal reports of damage, notations of shortages or damages or both on freight bills, delivery receipts or other documents or inspection reports issued by Customer or its inspection agency, whether the extent of loss or damage is indicated in dollars and cents or otherwise will, standing alone, not be considered by Carrier as sufficient to comply with the minimum claim filing requirements as provided herein.

- v. Whenever a claim is filed with Carrier for an uncertain amount such as "\$100.00 more or less" Carrier will determine the condition of the shipment involved at the time of delivery by it, if it was delivered, and will ascertain as nearly as possible the extent, if any, of the loss or damage for which it may be responsible. Carrier will not, however, voluntarily pay a claim under such circumstances unless and until a formal claim in writing for a specified or determinable amount of money has been filed in accordance with the provisions as provided herein.

(B) ACKNOWLEDGMENT OF CLAIMS

- i. Carrier will, upon receipt in writing of a proper claim, acknowledge the receipt of such claim in writing to the claimant within thirty (30) days after the date of its receipt by Carrier unless Carrier has paid or declined such a claim in writing within thirty (30) days of the receipt thereof. Carrier will indicate in its acknowledgement to the claimant what, if any, additional documentary evidence or other pertinent information may be required by Carrier to further process the claim that the preliminary examination of the claim as filed may have revealed.
- ii. Carrier will, at the time each claim is received, create a separate file and assign a specific, unique claim file number and note the number on all documents filed in support of the claim and all records and correspondence with respect to the claim, including the written acknowledgement of receipt and, if in Carrier's possession, the shipping order, bill of lading and delivery receipt, if any, regarding the claim in process. At the time the claim is received, Carrier will notate the date of receipt on the face of the claim document and the date of receipt will be notated on Carrier's written acknowledgment of receipt to the claimant.

(C) INVESTIGATION OF CLAIMS

- i. Any claim filed against Carrier filed in the manner prescribed herein will be promptly and thoroughly investigated, provided investigation has not already been satisfied prior to the receipt of the claim.
- ii. Each claim will be supported by
 - a. the original bill of lading;
 - b. evidence of the freight charges, if any; and
 - c. evidence supporting the value of the property subject to the claim;
 - d. provided, however, that
 - 1. where the invoice does not show price or value,
 - 2. where the property involved has not been sold, or
 - 3. where the property has been transferred at book value only, then
 - 4. Carrier will require the claimant to establish the destination value in the quantity shipped, transported or involved and certify the correctness thereof in writing or show an alternative applicable value arising by reason of alternatively applicable contract terms, before voluntarily paying a claim.
- iii. A prerequisite to payment by Carrier of a claim for loss of an entire piece, package or shipment will be securing a certified statement in writing from the consignee of the shipment involved that the property for which the claim is filed has not been received from any other party.

(D) DISPOSITION OF CARGO CLAIMS

Carrier will pay, decline or make a firm compromise settlement offer in writing to the claimant within one hundred twenty (120) days after receipt of the claim by Carrier; provided that if the claim cannot be processed and disposed of within one hundred twenty (120) days, after expiration of each succeeding sixty (60) day period while the claim is pending, Carrier will advise the claimant in writing of the status of the claim and the reason for the delay in making final disposition and Carrier will retain a copy of each advise to the claimant in its claim file.

Upon payment of any loss, damage or delay claim, Carrier will become subrogated to all rights and remedies of Customer in respect to such claim, and Customer agrees to cooperate with Carrier in pursuing any subrogation rights or remedies that may not be available to Carrier.

(E) CLAIMS LOSS AND DAMAGE-SALVAGE

- i. Customer must cause the consignee to accept delivery of a shipment and is not entitled to abandon any shipment to Carrier. Customer has a duty to mitigate damages by accepting damaged cargo unless it is of no value and without salvage value. The obligation to mitigate damages also includes replacing damaged cartons and packaging, relabeling freight and undertaking other repairs and replacement of packaging.
- ii. If owner, consignee or other person entitled to receive the cargo refuses to accept such cargo due to damage or any other reason, Carrier, after giving due notice, wherever practical to do so, to the

owner and other parties that may have an interest therein, and unless otherwise advised to the contrary after giving such notice, may sell or dispose of such property directly or by a competent salvage agent. The amount of sale will be applied to the costs of the sale and Carrier's invoice for transportation and other lawful charges. The owner will be responsible for the balance of the charges not covered by the sale of goods. If there is a balance remaining after all charges and expenses are paid, such balance will be paid to the owner of the property sold hereunder, upon written claim and proof of ownership. Carrier will maintain a record sufficient to identify the property involved in order to be able to correlate it to the shipment or transportation involved and claim filed.

- iii. Upon receipt of a shipment on which salvage has been processed as provided herein, Carrier will record on its claim file the lot number assigned, the amount of money recovered, if any, and the transmittal of such money to the person or persons lawfully entitled to receive the same.

(F) DISPOSITION OF OVERAGE

Consignee will accept overages in fulfillment of its duty to mitigate damages. Overages will be returned to the consignee or shipper by Carrier upon request in return for payment of Carrier's freight charges.

In the event consignor or consignee decline to accept overages and mitigate damages, Carrier will treat any overage as salvage and after notice will sell the overage in accordance with the provisions herein. The proceeds of any such sale less Carrier's freight and storage charges will be remitted to the persons lawfully entitled to receive the same.

Carrier will not be liable for any difference between the sales price of overage and destination market value where the shipper or consignee decline to mitigate damages.

(G) DISPOSITION OF CONTESTED CARGO CLAIMS

Claimant waives any right to set off or offset contested and unliquidated cargo claims against freight charges otherwise due to Carrier as a precondition of service. Claimant agrees to forfeiture of any contested claim asserted by it as a setoff after notice and demand for freight charges.

(H) ADDITIONAL RULES

- i. In no event will Carrier's liability exceed the lesser of the actual value of the cargo or the declared value.
- ii. The value of shipments involving documents (including checks, bonds, stock certificates, or any other negotiable or non-negotiable instrument), records and data records, without limitation as to the type, including but not limited to electronic or paper hard copy, will be limited to the value of the actual media upon which it is contained. Further, no costs, expenses, or claims of any nature will be assumed or accepted which is associated with the replication, duplication or recreation of lost data or documentation. For example, in the case of paper documents the value will be limited to the value of the paper.
- iii. Regardless of commodity shipped or valuation, all transportation charges must be paid in full before any settlement for a claim for loss or damage will be made. Customer may not deduct or offset any cargo loss, damage, or delay claims from any freight charges owed to Carrier. Carrier reserves the right, at its sole discretion, to either credit an account or provide an actual refund for any sums determined to be owed by Carrier.
- iv. The valuation as determined by the provisions of this Tariff will be the maximum liability in connection with a shipment of the specific cargo, including, but not limited to, any loss, damage, delay, misdelivery, non-delivery, misinformation, any failure to provide information, or misdelivery of information relating to the shipment. It is Customer's responsibility to prove actual damages. Exposure to and risk of any loss in excess of the released value provisions or declared value provisions as provided for in this Tariff are assumed by Customer.
- v. Carrier is not bound to transport a shipment by a particular appointment schedule, or in time for a particular market, but is responsible to transport a shipment with reasonable dispatch. Carrier will not be liable for late deliveries or missed appointments unless such late delivery or missed appointment is beyond Carrier's duty of reasonable dispatch, and such failure of reasonable dispatch results in actual loss or damage to goods, in which case Carrier's liability for the late delivery or missed appointment will be limited to the linehaul rate payable for such delayed shipment. In no event will a time quotation be considered a guarantee of delivery time.
- vi. If Customer loads and seals the cargo within the trailer and the seal is intact upon delivery, Carrier will not be liable for shortages or any damage to the cargo unless there is physical evidence of unauthorized entry into the trailer or conveyance while it was in the possession of Carrier and proof of actual damage or loss of Goods. In no event will a broken seal, in and of itself, be the sole ground for

rejection of cargo or filing a claim with Carrier. Carrier will also not be liable if (1) the seal is broken at the direction and under the supervision of an agent of a governmental authority, or (2) trailers or containers are preloaded and the adequacy of loading or count of such trailer or container cannot be practically determined by Carrier's representative. If a seal is broken for an inspection by an agent of a governmental authority, Carrier will request that the governmental authority reseal the trailer or container and/or make appropriate notation on the freight documentation form. The consignee may not refuse delivery of a shipment, even for food grade loads, due to broken or missing seals unless there is direct physical evidence of product tampering or contamination beyond the broken or missing seal. Contamination claims must be supported by appropriate quality inspections outlining the full actual loss. Carrier may break the seal on a trailer or container if it determines that breaking the seal is reasonably necessary to inspect, reposition, or protect the cargo or the equipment or to comply with federal, state, municipal, or provincial laws.

- vii. Customer is not entitled to reject a shipment, in whole or in part, due to ants or other pests on the outside of packaging. In the absence of any other evidence, the presence of ants or other pests will not create a presumption of loss to or contamination of the Goods.

Item 402 - CARGO CLAIM LIABILITY AND LIMITATION - U.S. AND CANADA

- (A) With respect to motor carrier services provided by Carrier entirely in the United States and/or Canada under Carrier's motor carrier authority with the DOT, Carrier will be liable for cargo loss or damage as a "carrier" pursuant to the Carmack Amendment (49 USC 14706) as amended from time to time regardless of whether transport is interstate, intrastate or involves foreign commerce. Carrier's liability for loss or damage to the shipment will not begin until the shipment is in Carrier's actual possession (as evidenced by a signed bill of lading or pick-up receipt). Unless a higher value is declared by Customer in accordance with the provisions herein and additional freight charges applicable to such declaration have been paid, Carrier's liability for such claims is limited to the lesser of: (i) the value of the goods lost, damaged or destroyed; (ii) \$.50 per pound per package; or (iii) \$100,000 per trailer or conveyance.
- (B) Consistent with the Carmack Amendment, Carrier will not be liable for the following: (1) damage to cargo or equipment to the extent due to packaging, loading, unloading, blocking, bracing or securing of the cargo (unless Carrier was engaged to provide such services); (2) inherent vice or defect in the cargo transported, including rusting of metals, swelling of wood caused by humidity, moisture or condensation, deterioration of perishable products, or damages caused by heat or cold; (3) act of God; (4) an act or default of any Customer; or (5) shipments stopped and held in transit at Customer's request.
- (C) Declaring Excess Value.
 - i. Carrier must be notified at the time it agrees to transport cargo that a value in excess of the lesser of \$.50 per pound per package or \$100,000 per trailer or conveyance will be declared, and the amount that will be declared. The released value will be valid (meaning Carrier's limitation of liability will apply) unless Carrier has agreed in writing signed by an authorized representative to accept the cargo at the declared value. In order to request such additional liability, Customer must contact Carrier at (877) 367-3971 and make such request. If Carrier agrees to accept the additional liability, Carrier will provide a signed rate confirmation sheet acknowledging Carrier's acceptance of increased liability and reflecting additional charges as set forth below. Carrier's driver is not an authorized representative of Carrier for purposes of this provision, meaning that declaration of value on the bill of lading at the time of tender, without complying with the remaining provisions of this Item, is an insufficient method of declaring value.
 - ii. The declared value must be clearly stated as such on the face of the bill of lading.
- (D) Unless otherwise agreed by Carrier, a charge of \$0.60 per \$100.00 of declared value over \$100,000, in addition to all other charges, will be assessed.
- (E) The foregoing notwithstanding, cargo consisting of used or reconditioned machinery and equipment are released to a maximum of \$.10 per pound per lost or damaged article, subject to a maximum value of \$20,000 per trailer or conveyance. Cargo will be considered used or reconditioned if it has been in previous service and was later reconditioned, regardless of the percentage or value of the new, unused or reconditioned parts added during the reconditioning process. If Customer would like to declare excess value with respect to such shipments, it must comply with the procedures set forth above. The charge will be \$.05/mile per \$100.00 of value declared over \$20,000. Shipments which unknowingly involve used or reconditioned equipment will still be governed by these terms regardless of other terms arranged.
- (F) In no event will Carrier's liability exceed the lesser of the actual value of the cargo or, if applicable, the declared value.

Item 403 - CARGO CLAIM LIABILITY AND LIMITATION – MEXICO

- (A) This item applies to any shipment that moves by motor carrier to, from or within Mexico regardless of the shipment's origin or destination point. Except to the extent that a court of competent jurisdiction determines that the Carmack Amendment compulsorily applies by its own terms to any such shipment as a matter of law, Carrier will have no liability with respect to claims for loss, damage or delay occurring or arising within Mexico. For purposes of this item, it will be assumed that any loss, damage or delay occurring with respect to any shipment to, from or within Mexico will have occurred within Mexico unless the claimant can prove by clear and convincing evidence that the loss, damage or delay arose elsewhere.
- (B) If it is determined by a court of competent jurisdiction that the Carmack Amendment compulsorily applies by its own terms to a shipment moving to, from or within Mexico, Carrier will be liable for such claims in an amount not to exceed the liability imposed by Mexican law as it pertains to loss or damage to cargo carried by motor carrier unless excess value is declared in accordance with the provisions of this item.
- (C) Declaring Excess Value.
 - i. Carrier must be notified at the time it agrees to transport cargo moving to, from or within Mexico that Customer would like to declare value in excess of the limits imposed by Mexican law (which is 15 days minimum wage (currently \$70.10 Pesos in 2015) per ton or approximately \$0.033 per pound as of 2015), and the amount that will be declared. The applicable limitation of liability will be valid (meaning Carrier's liability will be capped in accordance with Mexican law) unless Carrier has agreed in a writing signed by an authorized representative to accept the cargo at the declared value. In order to request such additional liability, Customer must contact Carrier at (877) 367-3971 and make such request. If Carrier agrees to accept the additional liability, Carrier will provide a signed rate confirmation sheet acknowledging Carrier's acceptance of increased liability and reflecting additional charges as set forth below. Carrier's driver is not an authorized representative of Carrier for purposes of this provision, meaning that declaration of value on the bill of lading at the time of tender, without complying with the remaining provisions of this Item, is an insufficient method of declaring value.
 - ii. The declared value must be clearly stated as such on the face of the bill of lading.
 - iii. A charge of \$.10/mile per \$5,000 of declared value in addition to all other charges will be assessed.
 - iv. Declared values in excess of \$50,000 will not be accepted, and in the event Customer attempts to declare a value in excess of \$50,000 per trailer or conveyance, Carrier's liability will continue to be limited to \$50,000 per trailer or conveyance.

Item 404 - CARGO CLAIMS RULES-TEMPERATURE CONTROL

Carrier will have no obligation to provide temperature controlled transportation, and all transportation services will be provided at ambient temperature, unless Customer notifies Carrier at the time of the initial request for services that controlled temperature service is required and provides Carrier specified temperature ranges. Customer will be responsible for ensuring that cargo is at the proper temperature for transportation at the time of tender and is otherwise properly packaged and prepared for transport. If cargo is required to be held below a specific temperature or within a temperature range, the cargo must be at or below that temperature or within that range at the time Carrier takes possession of the cargo. Customer must prove compliance with these obligations by clear and convincing evidence in order to prove delivery to Carrier in good condition in relation to any and all claims arising from or related to Carrier's alleged noncompliance with temperature requirements that occur during transportation or any claims of damage or loss to the freight transported.

For claims filed due to perceived failures and subsequent damage to cargo transported while utilizing temperature controlled equipment, claimant will be required to provide the following:

- (A) all chain of custody shipping documents, including but not limited to Bills of Lading, and temperature reports from the date of manufacturing until final disposition (final disposition will be considered the destruction or sale of the product or the status of the product at the time of filing a cargo claim);
- (B) all "Research Stability Test Results" related to the product;
- (C) identification of the date and time of the product testing by claimant used to determine stability of the product as well as demonstrate the handling and care of the product from the time of delivery until the inspection and analysis of the product by the claimant's quality assurance department; and
- (D) a copy of all temperature data recordings (printout) from any devices placed by the shipper.

These requirements are in addition to any and all other specified requirements provided in this publication as it relates to claims, loss and damage.

Carrier is not liable for any actual or alleged deviation from required temperatures where there is no other evidence of actual damage to the cargo.

Item 430 - C.O.D. SHIPMENTS

Collect-On-Delivery shipments will be accepted by Carrier subject to the following terms and conditions:

- (A) Carrier must be notified at the time the order is placed that the shipment requires the driver to Collect-On-Delivery, and the form of payment must be acceptable to Carrier.
- (B) The letters C.O.D. must be stamped or written in bold red lettering on the bill of lading or any paperwork that the driver will receive.
- (C) The charge for collecting and remitting the amount of each C.O.D. shipment will be based on 1.5% of the C.O.D. amount subject to a minimum charge of \$50.00 per shipment.
- (D) The C.O.D. invoice payment must be tendered to Carrier on a certified check, cashier's check or money order. Carrier assumes no liability whatsoever for COD payments that default, without exception or limitation, for any reason whatsoever, including but not limited to those that default due to a lack of funds, credit exceeding established limits, erroneous, forged, counterfeit, stolen or fraudulent checks, drafts, currency, credit card or voucher.
- (E) Carrier will remit C.O.D. collections within thirty (30) days from the date of collection. The C.O.D. amount will be remitted to the shipper via U.S. Postal Service and Carrier will not be liable for loss or delay of payment.

Item 450 - CONSEQUENTIAL DAMAGE

IN NO EVENT WILL CARRIER WILL BE LIABLE FOR ANY SPECIAL, INCIDENTAL, INDIRECT, CONSEQUENTIAL, PUNITIVE OR EXEMPLARY DAMAGES, INCLUDING BUT WITHOUT LIMITATION TO LOST PROFITS OR INCOME, REGARDLESS OF WHETHER CARRIER HAD KNOWLEDGE THAT SUCH DAMAGE MIGHT BE INCURRED.

Item 455 - CONSTANT SURVEILLANCE (CIS)

Constant Surveillance service and its requirements are handled in accordance with the terms established within the MFTRP No 1C and reissues thereof. Further details and definitions can be requested from the applicable RXO Sales Manager or Select Services Division.

This service must be requested in advance as well as annotated on the bill of lading as follows: "Constant Surveillance Service (CIS) is Requested. Signature and Tally Record (DD Form 1907) furnished to carrier."

Charges for this service are in addition to transportation costs and, unless otherwise stated in a written rate quotation for the particular shipment, will be subject to a rate of fifteen cents (\$0.15) per mile or a minimum of \$125.00, whichever is greater.

Item 500 - DETENTION

When Carrier's vehicle(s) are delayed or detained at the premises of the consignor or consignee, or other places designated by either party for loading or unloading, Carrier will assess a detention charge in addition to all other applicable charges.

Unless otherwise stated in a written rate quotation for the particular shipment, detention charges will be billed at a rate of \$25.00 for dry van equipment or \$50.00 for temperature controlled equipment per 15 minutes in excess of allowable free time subject to a maximum of ten (10) hours per calendar day, regardless of whether or not Carrier's vehicle remains on the premises or departs from the premises while waiting to deliver. Detention time will begin once the vehicle is available for loading or unloading, and end upon completion of loading or unloading and receipt by the driver of a signed bill of lading or delivery receipt. Unless otherwise agreed by Carrier in writing, the total allowable free time for loading or unloading will be 1 hour. If a vehicle is both loaded and unloaded, the free time will be 1 hour for each service.

Charges for detention will be charged to the billing party regardless of where the detention occurs. Saturdays, Sundays and/or Holidays are not excluded from this item.

Carrier holds itself out as an expedited Carrier and as such, does not typically drop trailers, spot trailers or provide any unattended vehicles, unless provided in specific agreements.

Consignee has the responsibility to unload freight or allow unloading of the freight within 24 hours of the vehicle arriving at delivery or scheduled delivery, whichever is later. Carrier's liability as a warehouseman will begin at the earlier of refusal or rejection of cargo, or expiration of such 24 hour period. Carrier reserves the right, at its sole discretion, to place freight into a storage facility when unloading is not performed in accordance with this item. Upon placement of cargo into storage, Carrier's responsibility, care, custody and control will conclude. All costs

related to the transportation of freight to the storage facility will be billed to the party of record, in addition to the storage fee. Carrier assumes no liability for loss or damage to stored cargo and will have no responsibility for ensuring that the storage facility accepts responsibility for the full value of cargo tendered or any lesser amount.

Item 510 - DISTANCES-COMPUTATION OF MILEAGES

Mileage will be determined by the use of AKL Technologies, Inc., PC Miler (current version) based on practical routings, origin city to destination city via intermediate points as specified on the bill of lading. Item 520 – EXTRA LABOR-LOADING AND/OR UNLOADING

Shipments subject to this Tariff are based on a shipper load and consignee unload basis. Omission of a shipper load, count and seal or similar notation on the bill of lading will not result in a presumption of Carrier liability for shortage or damage where the driver was either not present or not allowed to observe the loading and/or unloading. If Customer requests the driver(s) to assist with loading and/or unloading, Inside Pickup and/or Inside Delivery or other additional labor services, Carrier will charge a rate of \$50.00 per hour, per driver or other person, subject to a minimum charge of \$50.00. These charges will be assessed in addition to all other applicable charges.

Item 525 - HAZARDOUS MATERIALS CHARGES AND PROCEDURES

Hazardous material shipments will be charged at the applicable rate plus a handling fee of \$150.00 per shipment in addition to all other applicable charges. Customer will also be responsible for payment of all federal, state, city or county taxes incurred and all fines assessed in the occurrence of any leakage due to the result of improper packaging or improper loading, and any fees, fines or expenses, including administrative and legal fees incurred by Carrier, as a result of its failure to comply with any of the foregoing and/or those as required of a Customer by law. Further, Customer will assume all liability incident to, arising from, or as a consequence of its failure to comply with any of the foregoing. Customer will indemnify, defend, and hold Carrier harmless from any property damage, loss, injury, death, or other liability, including costs of clean up, disposal, fines, remediation, attorney fees, and related expenses, related to noncompliance with the obligations set forth herein.

Customer's failure to disclose the presence of hazardous materials or to comply with these requirements will relieve Carrier of any liability for loss or damage directly or indirectly caused to or by the hazardous materials. Any hazardous materials found to have been misdeclared may be warehoused at Customer's risk and expense. If Customer does refuse to pre-pay return transportation charges to the point of origin and accept return of undeclared or misdeclared hazardous materials, Carrier may arrange for the destruction of such hazardous

materials at Customer's expense and Customer will defend, indemnify and hold harmless Carrier from and against any direct or indirect claims arising from or related to such destruction.

Item 530 - MOTOR CARRIER TRANSPORTATION ASSOCIATED WITH AIR TRANSPORTATION

Customer agrees at time of booking to notify Carrier if the shipment is intended to have a subsequent movement by air and agrees to be responsible for all required labeling, placarding, and shipping document preparation. Customer agrees to indemnify, defend, and hold Carrier and its contracted service providers harmless from any liability, claim, or fine relating to or arising out of Customer's breach of warranty or improper tendering of air freight Shipments to Carrier, including, but not limited to, any violation of federal security or safety regulations.

Item 570 - IMPRACTICAL OPERATIONS AND FORCE MAJEURE

Nothing in this Tariff, as amended, or in tariffs governed by this Tariff, or in contracts referencing and incorporating this Tariff will be construed as making it binding upon Carrier to accept freight from or make delivery to locations to which it is impractical to operate vehicles, inclusive of performing pickup or delivery services, of conditions of alleys or streets, because of riots or strikes, conditions typically referred to as Acts of God or force majeure events. Moreover, Carrier will not be liable for failure to perform, including failure to timely perform, services under this Tariff where such failure is wholly or partially due to an event of force majeure (whether foreseeable or not), including, but not limited to, an act of God, war, fire, weather, explosion, riot, civil commotion, act of terrorism, restriction by government or other authority, customs delays, mechanical delays, strikes, lock outs, failure of suppliers, or to any cause whatsoever which is beyond the direct and exclusive ability of Carrier to control.
